MINI-WORKSHOP on

Complex Flows and Turbulence

December 7, 2012

Invited speakers:

José Andrade Jr., UFC, Fortaleza, Brazil (Complex flows, numerics)
Daniel Bonn, Univ. Amsterdam, Netherlands (Complex flows, MRI studies)
Paul Dommersnes, Univ. Paris 7, France (Complex flows in and on droplets, theory)
Jon Otto Fossum, NTNU, Trondheim, Norway (Complex flows in and on droplets, experiments)
Mogens Høgh Jensen, NBI, Copenhagen, Denmark (Turbulence in biosystems)
Luca Moriconi, UFRJ, Rio de Janeiro, Brazil (Turbulence, models)
Giovani L. Vasconcelos, UFPE, Recife, Brazil (Turbulence, models)

Organizers:

Giovani L. Vasconcelos, UFPE, Recife Brazil
Jon Otto Fossum, NTNU, Trondheim, Norway

The one-day mini-workshop will take place in the main auditorium of the Physics Department at the Federal University of Pernambuco - UFPE, Recife, Brazil during Friday December 7th, 2012. The mini-workshop is open to all interested participants, which are encouraged to submit poster contributions.

Deadline:

Send titles of posters by email to **Giovani L. Vasconcelos**
(giovani@df.ufpe.br) before November 18, 2012.
